National Account Management

Meeting Your Expectations and Beyond

Our National Account clients expect quality service, consistent pricing, and dedicated account management. We provide cost certainty and strive to allocate client budgets to the most impactful areas of their business, including strategic capital expenditures.

- ✓ **Consistency & Quality:** Delivering exceptional customer service and dedicated resources nationwide.
- ✓ **Dedicated Account Management:** Providing seamless, hassle-free processes tailored to your goals and needs.
- ✓ **Reporting & Invoicing:** Delivering transparent, timely reports and accurate invoicing for complete financial clarity.
- ✓ **Strategic Growth:** Implementing clear management strategies to align with your corporate objectives and future success.
- ✓ **Customer Commitment:** Offering responsive, skilled service with open communication to exceed expectations, expert guidance and an unwavering commitment to success.

National Services that Deliver Real Value

Strategic Account Management

Proactive account management allows your facilities to reach operational, financial and sustainability objectives.

Responsive Service

Every client deserves timely support that adapts quickly to their evolving needs.

24/7 Availability

The Centralized Contact Centre (CCC) provides quick and reliable service day or night.

Predictable Costs

Clear, reliable pricing with no surprises enables confident financial planning and resource allocation, supported by transparent reporting and accessible data.

Economies of Scale

Consolidated services to drive efficiency, reduce costs, and deliver high-quality results.

Custom Solutions

From retrofits to cutting-edge system designs, our solutions are built to enhance efficiency and long-term performance.

Nationwide Service, delivered with personalized care that drives measurable results.

Market Experience

B&M has significant experience operating and maintaining sites for key private and public institutions and currently maintains thousands of agreements that consist of single sites, as well as portfolio agreements, both regionally and nationally.

24/7 In-House Central Contact Centre (Bilingual)

Access to 24/7 Customer Support: Facilities often face communication issues leading to inefficiencies, work delays, and inconsistent quality standards. Streamlining work processes is crucial to maintaining smooth operations throughout the year. We can fully manage all work inquiries and requests while triaging accordingly through our dedicated centralized Contact Centre. This ensures you get live-agent support when you need it, around the clock, 365 days per year.

Computerized Maintenance Management System (CMMS)

As a value enabler, a good CMMS should not only provide you with complete control of your data but safeguard your assets for years to come. Black & McDonald's CMMS categorizes all design and install specifications, operating procedures, maintenance tasks and frequencies, and maintenance repair histories for all systems and equipment. Our CMMS platform is fully integrated into our enterprise resource planning solution- which bridges all activities between financial, human resources, procurement, project, and maintenance activities.
