

Black&McDonald

SHEET METAL AND PREFABRICATION SERVICES

Black & McDonald is an integrated, multi-trade service provider that safely delivers high-quality construction, facilities management, and technical solutions.

At Black & McDonald, our in-house Sheet Metal Division is built for efficiency, precision, and quality. Serving as a critical arm of our integrated service model, we fabricate and deliver custom components that help projects move faster, safer, and more efficiently—from ductwork to custom builds.

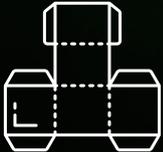

What We Do

**Custom Sheet
Metal Fabrication**

Prefabrication Services

Planning and Execution

Capabilities at a Glance

- Commercial, Industrial and Institutional Projects
- Custom Ductwork Fabrication
(Galvanized, Stainless, Aluminum)
- Architectural Sheet Metal Work
- Welding and Metal Bending
- Plasma Cutting, Laser Cutting and Advanced Machinery
- Small-Batch and High-Volume Production
- Design Collaboration and Build Optimization
- Pre-assembly and Modularization

Why it Matters

By prefabricating in a controlled environment, we:

- ✔ Reduce on-site installation time
- ✔ Minimize safety risks
- ✔ Improve installation quality
- ✔ Deliver faster and more cost-effective outcomes

Partner With Us

Whether you're planning a major retrofit, supporting critical infrastructure, or managing ongoing maintenance, our Sheet Metal Division delivers with accuracy, accountability, and agility.
